(The minimum recording file last for 3 seconds. you may stop recording after 3 seconds.)

### Step4.

Press the Mute/Down key to enter the **playback** mode as following.

### Step5. (Important notice/ Special notice)

In the playback mode, press **REC** and **UP** key together at the same time (first press REC and then up key). [Holding for 5 seconds](#)

Vico-TF2 will enter upgrading automatically.

The device will confirm and reboot automatically after upgrading successfully.

Please reset default after upgrading.

The user might have to reset the previous configuration again.

Please be aware the device might be broken if power down during uploading.

## SPECIAL NOTICE:

Please be careful about the charger. The original charger is highly recommended for upgrade in the car. If you upgrade at home, please aware of the power adaptor can provide sufficient 5V/1A output.

Please avoid using mobile phone USB charger which under 5V/1A output. Insufficient power supply might lead to update failure. Please notice the power environment when upgrading, thank you.
